IN LISTER BABY 4-PLY QUALITIES

IMPORTANT To obtain a perfect result of the design illustrated it is essential that you use one of the Lister qualities recommended and work to the tension given. No responsibility can be accepted if wool or yarn other than Lister is used. Be sure to purchase sufficient wool or yarn to complete your garment, otherwise you may have difficulty in matching.

The design illustrated on the front cover was worked in Lister Bel Air Crepe for 4-ply Knitting.

Tension

7½sts. equal one inch (2.5cm)
No. 11 needles.

N.B.

The tension of the knitting controls the size of the finished garment. Before commencing cast on 15sts. and work in pattern for 18 rows. If your sample has less sts. per inch (2.5cm) than our tension, try again with smaller needles and vice versa, then work the garment on the needles which produce our tension.

Casting On - Thumb Method

2 yards (1m.83cm.) from the end twist the yarn (wool) round the left thumb to make a loop and knit this loop on to the needle from the ball of yarn (wool). Repeat till required number of sts. are on the needle making the loop from the 2 yards (1m.83cm.) and knitting from the ball. This method of casting on should always be used.
